

Pen-allergy de-labelling can be a powerful antimicrobial stewardship tool, clarifying options available to prescribers selecting the most appropriate antibiotic for their patients. Join leads in the BC-based multidisciplinary 'Drop the Label' initiative as they share successes and challenges in developing, implementing, and scaling up patient education and clinical tools to support prescribers serving people with potential antibiotic allergies.

Drop the Label: Penicillin Allergy de-Labelling is for Everyone!

Date: Monday, April 14, 2025
Time: 9:00 am PT / 10:00 am MT / 11:00 am CT /
12:00 pm ET / 1:00 pm AT / 1:30 pm NL
Location: Zoom (link will be sent following registration)

Moderator

Nick Smith, MPH
Project Manager,
Community Antimicrobial Stewardship
BC Centre for Disease Control,
Provincial Health Services Authority

Speakers

Tiffany Wong,
MD, FRCPC

University of British Columbia

Haneen Albayati,
BHSc, MPH Candidate
Spread Quality Improvement Lead,
Provincial Health Services Authority

Learning Objectives

**By the end of the session,
the participants will:**

- ✓ Be aware of the role that penicillin allergy de-labelling plays in stewardship efforts
- ✓ Understand steps to and challenges in helping patients achieve accurate penicillin allergy labels
- ✓ Learn about tools and resources that can aid practitioners in assessing penicillin allergy labels in their patients

- ✓ There is no fee to attend, however registration is required.
- ✓ Instructions will be provided following registration.
- ✓ The virtual event will be delivered via ZOOM.
- ✓ The program is not accredited.
- ✓ Session will be recorded and made available on www.AMRAware.ca and NCCID's YouTube account (@CentreInfection) following the presentation.
- ✓ French materials are available upon request. Contact nccid@umanitoba.ca
