

Locum Medical Microbiologist

Public Health and Microbiology Laboratory

Pathology and Laboratory Medicine Program, Newfoundland and Labrador Health Services

St. John's, NL

Locum Duration: Flexible and negotiable.

About US

NL Health Services cares for the province's population, offering a comprehensive range of health services and operates a wide variety of specialized health programs at its leading tertiary centers and acute care facilities across the province. The division of PHML works within NL Health Services to provide diagnostic services for all patient populations in the province, and uniquely bridges both acute care and public health microbiology as a unified program. PHML is continually working to improve state of the art technologies, with current focus on total lab automation, whole genome sequencing, novel laboratory developed assays, CL-3 processing and wastewater surveillance.

Summary of Locum Opportunity

The Pathology & Laboratory Medicine Program at Newfoundland and Labrador Health Services (NLHS) is seeking a qualified and highly motivated Medical Microbiologist to locum with the Public Health and Microbiology Laboratory (PHML) located in the city of St. John's. The successful candidate will join a group of clinical and medical microbiologists, with collaboration among molecular and diagnostic pathologists, hematopathologists, and clinical chemists providing the province with tertiary and quaternary laboratory care.

The successful candidate will provide Medical Microbiology (1.0 FTE) services, including participation in the on-call roster shared across microbiologists. Microbiologist responsibilities within the division are determined by the Division Head in collaboration with the microbiology team and considering individual interests and skill sets. The successful candidate is expected to build relationships and provide timely expert consultative services to physicians and health care providers, and work closely with all clinical care teams including, but not limited to, the Antimicrobial Stewardship team, Infectious Diseases, Infection Prevention and Control and Medical Officers of Health.

Required Qualifications

Eligible candidates must:

Hold a medical degree and have certification in Medical Microbiology by the Royal College Physicians and Surgeons of Canada, or an equivalent qualification.

Eligible for licensure by the College of Physicians and Surgeons of Newfoundland and Labrador.

Satisfy credentialing requirements of Services including a satisfactory criminal record check and vulnerable sector check.

Remuneration:

- Salary and benefits for this position are in accordance with the Memorandum of Agreement for Salaried Physicians in NL and commensurate with the level of training and experience.

Language: English
