

From Point of Care to Practice Change:

Antimicrobial Stewardship for Dental Conditions

Join us for a webinar exploring practical approaches to antimicrobial stewardship for dental conditions, from point-of-care clinical decision-making to system-level strategies that support appropriate prescribing and practice change.

Moderator:

Alissa Levine, PhD
Assistant Professor,
McGill University

Speaker:

Clifford Pau, BSc, MSc, DMD,
Clinical Associate Professor,
University of British Columbia

Speaker:

Susan Sutherland, DDS, MSc,
Associate Professor,
University of Toronto

New date:

Tuesday,
September 22, 2026

Time:

1:00 pm Eastern Time
(See registration page for
your local time)

Location:

Zoom registration
required

Learning Objectives:

By the end of this webinar, participants will be able to:

- Describe common scenarios in which antibiotics are overused for dental conditions and identify evidence-based alternatives to antimicrobial prescribing.
- Apply point-of-care stewardship tools and guidance to support appropriate management of patients presenting with dental pain or infection.
- Explain how system-level stewardship strategies, such as prescribing data feedback and quality improvement initiatives, can support sustained improvements in antibiotic prescribing practices.
