

Medical microbiologist and infectious disease specialist

Call for applications

Department of Specialized Medicine at Santé Québec Montérégie-Ouest is seeking two medical microbiologists and infectious disease specialists to join our dynamic teams at Hôpital Anna-Laberge (Châteauguay) and Hôpital du Suroît (Salaberry-de-Valleyfield).

These positions are aligned with the development of the future Hôpital de Vaudreuil-Soulanges (Vaudreuil-Dorion), scheduled to open in 2028, where an additional team of three medical microbiologists and infectious disease specialists will be added.

Why join us?

Our hospitals are known for their dynamic teams. Medical microbiologists and infectious disease specialists have access to a day hospital service for outpatient antibiotic therapy follow-up and for the management of complex wounds with a specialized nurse. Outpatient and inpatient consultations in infectious diseases are highly diverse.

Each of our hospitals has an on-site microbiology laboratory offering bacteriology, mycology, parasitology, serology, and molecular biology services. Medical microbiologists and infectious disease specialists also have the opportunity to be involved in our excellent infection prevention and control program.

Qualifications:

- Doctor of Medicine (MD) degree ;
- Licence to practice medicine issued by the Collège des médecins du Québec (CMQ), or eligible for licensure in Québec ;
- Specialist certification in Medical Microbiology and Infectious Diseases from the Collège des médecins du Québec, or equivalent ;
- French is the working language. Candidates must have an excellent command of spoken and written French.

Practice sites:

- Hôpital Anna-Laberge in Châteauguay ;
- Hôpital du Suroît in Salaberry-de-Valleyfield ;
- Futur Hôpital de Vaudreuil-Soulanges in Vaudreuil-Dorion.

How to apply

Interested candidates are invited to contact Chantal Ouimette, by e-mail at recrutement_md_specialiste.cisssmo16@ssss.gouv.qc.ca.
